

Pika Islanding Inverter

X7602 and X11402

A single-inverter solution for simplified solar-plus-storage

Solar-plus-storage is simple with the Pika Islanding Inverter. This bi-directional, REbus™-powered inverter offers a simpler, more efficient design for integrating smart batteries with solar.

Ideal for self-supply, backup power, zero-export and energy cost management, the Pika Islanding Inverter is our most powerful, feature-rich inverter yet.

Feature Overview:

- Single inverter for grid-tied solar with smart battery integration
- Simplified system design: No autotransformer or battery inverter needed
- User-selectable modes for backup power, self-supply, time-of-use and zero-export
- Free online monitoring included via Review Dashboard
