The CHIKO Rail is engineered for strength and versatility. It's slotted attachment points allow for easy installation using CHIKO tilt-in T-Bolt rail attachment. Lose some of your t-bolts? Simply use any 3/8" hex bolt so you can continue your installation without waiting for proprietary hardware. This rail features a wire management chamber in front.

Features

- Made with High Quality Aluminum AL 6005-T5
- Engineered for up to 6 foot spans
- Wire management chamber
